

I. Starting the Application

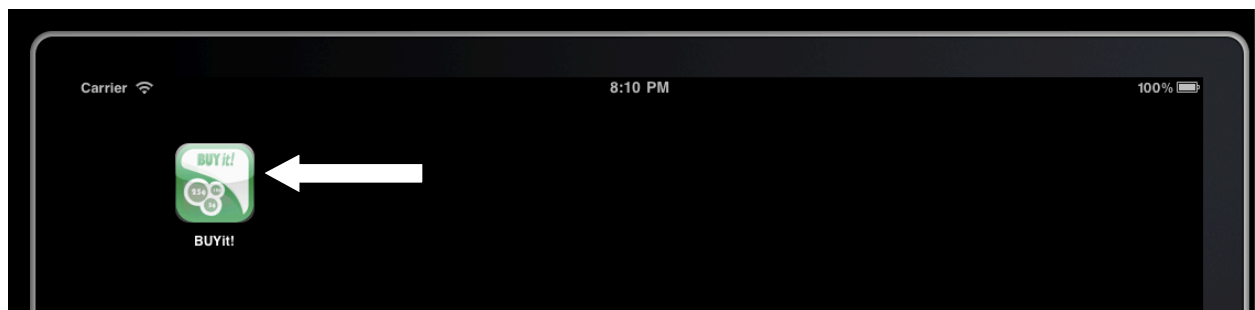

- Turn on/wake the iPad by pressing the sleep/wake button on the top of the iPad.

- The app supports only one orientation, which is left landscape. Turn the iPad sideways so the volume control on the bottom side of the iPad.

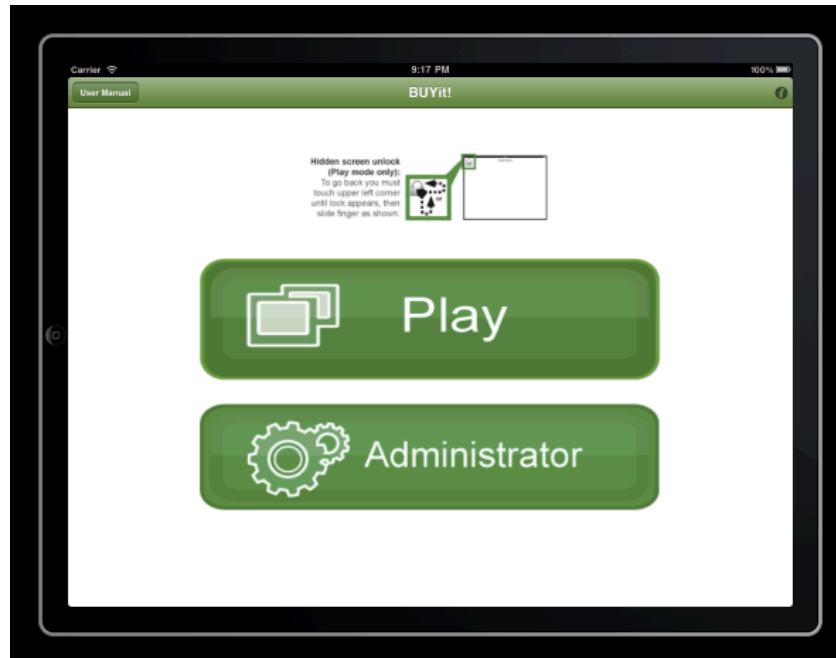

- Touch the IPAAC icon to start the application.

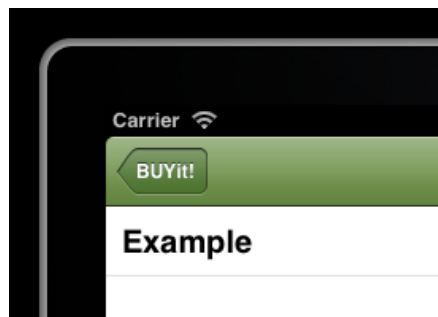

II. Home Screen

- Select either Play Activity or Create Activity by tapping the corresponding button.

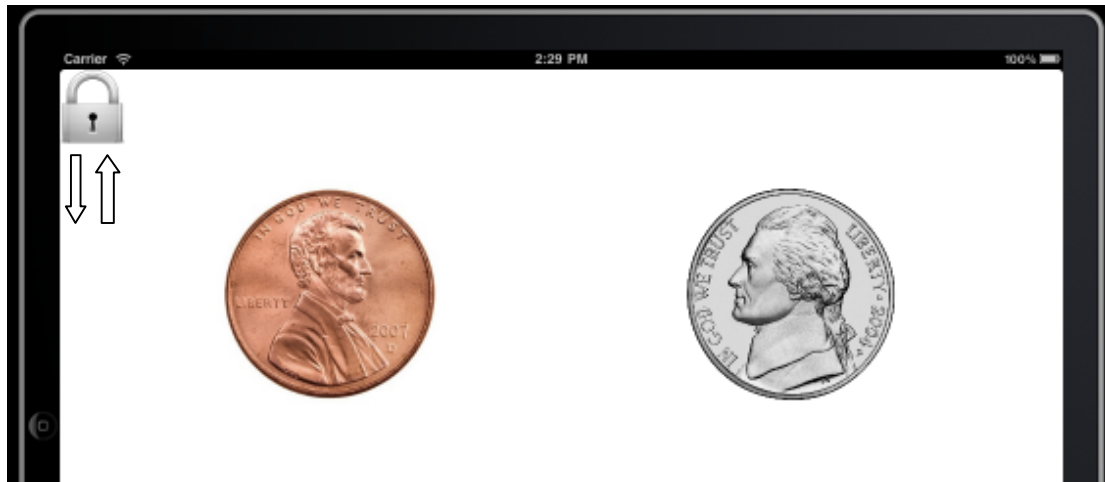

- Return to Home Screen by tapping BUYit! icon in the top left of the screen.

- ****Lock Button**** - To exit any Play Activity page that does not have the IPAAC HOME button, press and hold the top left-hand corner till the hidden lock appears.

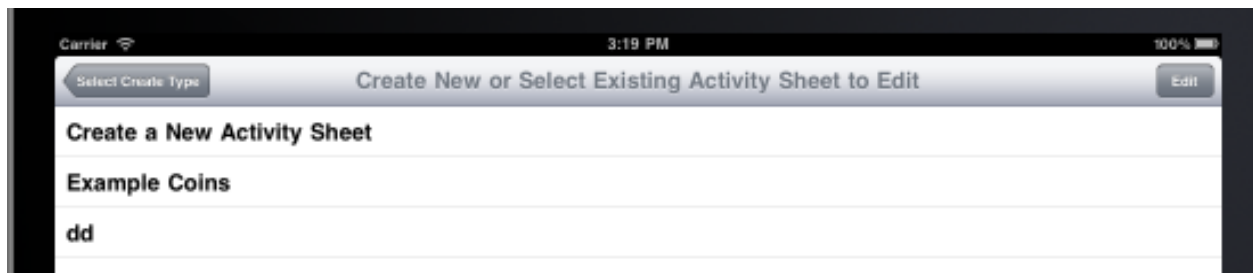

While pressing down, slide finger down and back up towards the lock button, and then release.

Showing Hidden Lock

III. Play Activity

1. Select one of the preset examples to play.

2. Pick the item you wish to buy on the first screen.

3. The coins you can use to buy the item appear in the center on the hand; the item you are buying is shown larger on the top left of the screen with the price underneath.

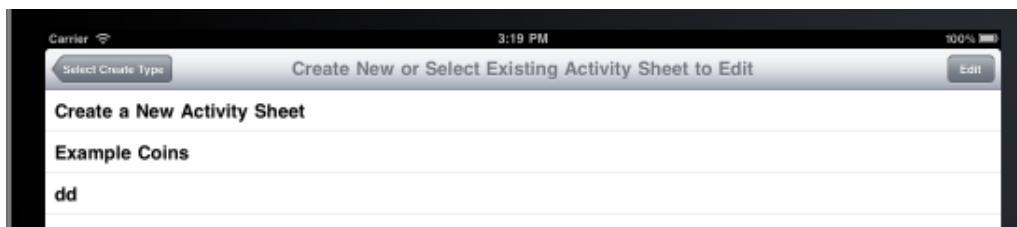

4. Touch and then drag a coin at a time to the 'wood counter' to buy the item.
5. The amount you have placed on the counter totals at the top right of the screen.
6. Click the Push For Coin Return button at the bottom right to put all the coins back in the hand, making your full total zero. You can also side a coin back to the hand to return it.

7. Click BUYit! at the bottom right to purchase the item.
 - a. If you have not put in enough, a notification will appear saying you do not have enough money to buy the item.
 - b. If you have the exact amount, a notification will say you that you have bought the item with exact change.
 - c. If you have put in more money than needed, a notification will say you have bought the item and how much change you have left.
8. To return back to the shelf to pick a different item, click Return To Shelf in the bottom left corner.

IV. Create Activity Mode

1. In Create Activity, a list of previously created activities along with an option to Create a New Activity Sheet will appear.

2. To edit a previously made activity, click on the existing activity and make the necessary changes.
3. When done editing, click Save in the top left corner, and confirm you want to save or click cancel to not save. A notification will pop up after saving to notify you have saved. Click Ok.
4. Click Back to exit this sheet, and click yes if you have saved your work.
5. To create a new activity, chose Create a New Activity Sheet.
6. Enter the name of the activity you want to save it as and click Submit.

7. Click on any of the blank boxes to add an item.

8. Chose the image and price for the icon.

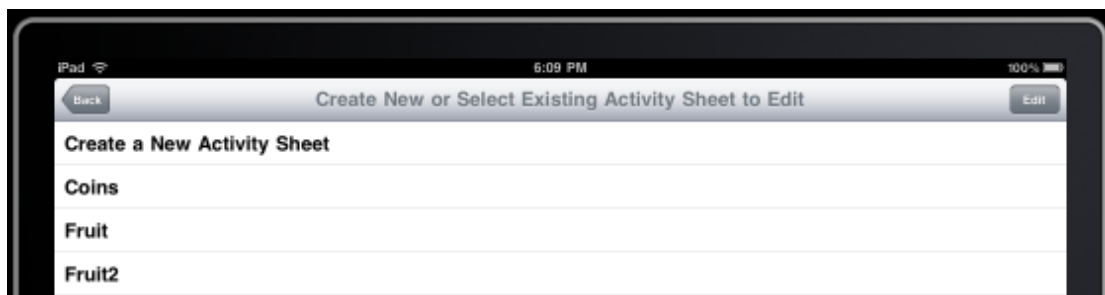

9. Click on Image and choose the desired image from the drop down menu.
10. Click Price and type your desired price for this item. Make sure to put in a dollar sign(\$) before typing in the dollar and change amount
11. To import images from the saved pictures on the iPad, click on Import Image.

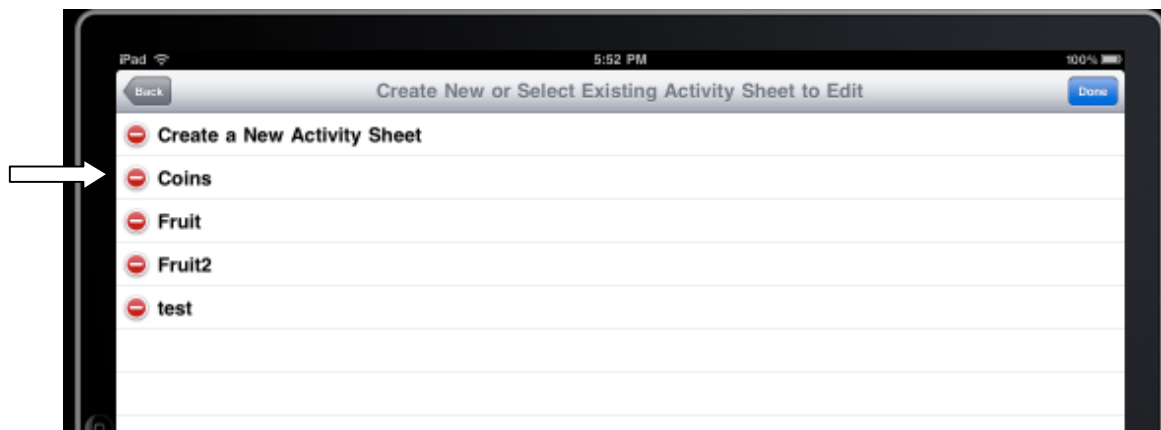

12. Adding images from a camera.

- To add photos from a camera or other external source, plug the camera into the computer and import images to iTunes.
- The easiest way to do this is to copy the images from the camera into a new folder on your computer.
- Then go into iTunes and hit File>Add Folder to Library and select the folder with which the images are saved in.
- Next, plug in your iPad to the computer and the images will automatically sync to the iPad photo library. Then you can add photos to the application though Step 14.

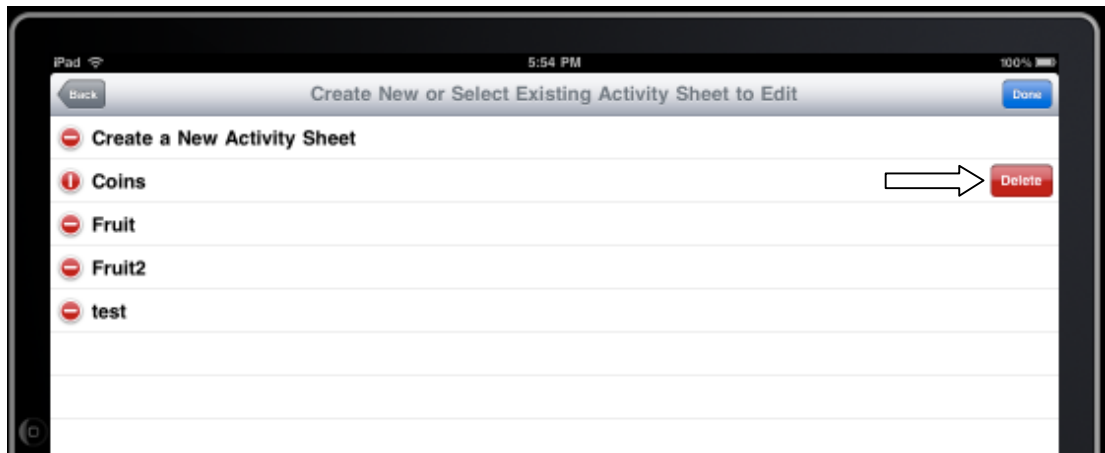

13. To delete any of the activity sheets, touch the edit button in the top right of the screen.

14. Touch the minus sign in the red circle that appears left of the name of the sheet you wish to delete.

15. Then click the Delete button on the right side of the screen to confirm you wish to delete this activity sheet.

16. Click the Done button in the top right corner if you are done deleting the sheet, or decide not to delete the sheet, to return to the original "Create Activity" screen.
